

BEFORE THE TENNESSEE STATE BOARD OF EQUALIZATION

IN RE:	Laura M. Bell)
	Ward 021, Block 042, Parcel 00019) Shelby County
	Residential Property)
	Tax Year 2005)

INITIAL DECISION AND ORDER

Statement of the Case

The subject property is presently valued as follows:

<u>LAND VALUE</u>	<u>IMPROVEMENT VALUE</u>	<u>TOTAL VALUE</u>	<u>ASSESSMENT</u>
\$5,100	\$47,900	\$53,000	\$13,250

An appeal has been filed on behalf of the property owner with the State Board of Equalization. The undersigned administrative judge conducted a hearing in this matter on June 6, 2006 in Memphis, Tennessee. In attendance at the hearing were Laura M. Bell, the appellant, and Shelby County Property Assessor's representative Jonathan Jackson.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

Subject property consists of a single family residence originally constructed as a duplex in 1920. Subject property is located at 1046 Palmetto in Memphis, Tennessee.

The taxpayer contended that subject property should be valued at \$20,000.¹ In support of this position, the taxpayer argued that subject property's location in a depressed neighborhood causes a significant loss in value. In addition, Ms. Bell testified that she was advised by someone who buys and sells homes that subject property was worth \$20,000. Moreover, Ms. Bell stated that subject property has had no updates except for the kitchen in 1988. Finally, Ms. Bell asserted that Chandler Reports supports a value of approximately \$40,000.

The assessor contended that subject property should be valued at \$53,000. In support of this position, five comparable sales were introduced into evidence.

The basis of valuation as stated in Tennessee Code Annotated Section 67-5-601(a) is that "[t]he value of all property shall be ascertained from the evidence of its sound, intrinsic and immediate value, for purposes of sale between a willing seller and a willing buyer without consideration of speculative values . . ."

After having reviewed all the evidence in the case, the administrative judge finds that the subject property should be valued at \$53,000 as contended by the assessor of property.

¹ At different points in the hearing the taxpayer seemingly testified she believed subject property was worth as much as \$40,000. The \$20,000 contention of value on the appeal form appears consistent with the preponderance of Ms. Bell's testimony.

Since the taxpayer is appealing from the determination of the Shelby County Board of Equalization, the burden of proof is on the taxpayer. See State Board of Equalization Rule 0600-1-.11(1) and *Big Fork Mining Company v. Tennessee Water Quality Control Board*, 620 S.W.2d 515 (Tenn. App. 1981).

The administrative judge finds merely reciting factors that could cause a diminution in value does not establish the current appraisal exceeds market value. The administrative judge finds the Assessment Appeals Commission has ruled on numerous occasions that one must *quantify* the loss in value one contends has not been adequately considered. See, e.g., *Fred & Ann Ruth Honeycutt* (Carter Co., Tax Year 1995) wherein the Assessment Appeals Commission ruled that the taxpayer introduced insufficient evidence to quantify the loss in value from the stigma associated with a gasoline spill. The Commission stated in pertinent part as follows:

The assessor conceded that the gasoline spill affected the value of the property, but he asserted that his valuation already reflects a deduction of 15% for the effects of the spill. . . . The administrative judge rejected Mr. Honeycutt's claim for an additional reduction in the taxable value, noting that he had not produced evidence by which to quantify the effect of the "stigma." The Commission finds itself in the same position. . . . Conceding that the marketability of a property may be affected by contamination of a neighboring property, we must have proof that allows us to quantify the loss in value, such as sales of comparable properties. . . . Absent this proof here we must accept as sufficient, the assessor's attempts to reflect environmental condition in the present value of the property.

Final Decision and Order at 1-2. Similarly, in *Kenneth R. and Rebecca L. Adams* (Shelby Co., Tax Year 1998) the Commission ruled in relevant part as follows:

The taxpayer also claimed that the land value set by the assessing authorities. . . was too high. In support of that position, she claimed that. . . the use of surrounding property detracted from the value of their property. . . . As to the assertion the use of properties has a detrimental effect on the value of the subject property, that assertion, without some valid method of quantifying the same, is meaningless.

Final Decision and Order at 2.

The administrative judge finds that the \$20,000 estimate of value made by some unnamed individual cannot receive any weight. The administrative judge finds such hearsay lacks any probative value.

The administrative judge finds that the comparable sales contained in Chandler Reports can certainly be relevant. In this case, however, the sales have not been analyzed or adjusted. Moreover, it appears that Ms. Bell simply selected the comparables with the lowest sales prices.

ORDER

It is therefore ORDERED that the following value and assessment be adopted for tax year 2005:

<u>LAND VALUE</u>	<u>IMPROVEMENT VALUE</u>	<u>TOTAL VALUE</u>	<u>ASSESSMENT</u>
\$5,100	\$47,900	\$53,000	\$13,250

It is FURTHER ORDERED that any applicable hearing costs be assessed pursuant to Tenn. Code Ann. § 67-5-1501(d) and State Board of Equalization Rule 0600-1-.17.
